AMERICAN FEDERATION ENJOINED FROM BOYCOTTING STOVE COMPANY

WASHINGTON, December 17.—Of far reaching importance to the labor and business interests of the country was the decision announced today by Justice Gould of the equity court of the district of Columbia, enjoining the American Federation of Labor, with a membership of 2,000,000 or more, from boycotting the Buck Stove & Range company. The name of the company is in the "Unfair" and "We don't patronize" lists and the decision arraigns the action of the federation as illegal and a conspiracy.

Tomorrow there will be argument before Judge Gould over the proposition of counsel for the federation that the court's order putting the injunction into effect limits in express terms, its application to the District of Columbia. Counsel for the plaintiff company will oppose this. The question of a permanent injunction will come up probably next spring, and whichever side wins in the final settlement of the case, it is believed it will be appealed to the supreme court of the United States.

SHORT STORIES OF THE CITY

New Furnishing House.—Mark Cheever is remodeling his store building, 687 North Broad street, and in a few days will open the store with a full line of gentlemen's furnishing goods. A new, modern front has been placed in the building and shelving and counters put in. Mark is a good rustler, and will make a success of the venture.

Si will talk some at Dreamland tonight.

Judge J. C. Evans of Roosevelt is a visitor in the city. He states that rapid progress is being made on the big dam, which on account of its present height is now immune from flood damage.

"The Chorus Girl" tonight. The hit of the season.

Van Wagenen makes a specialty of tinting. Satisfaction our motto.

A dollar show for 50 cents, at Dreamland any night this week.

Humor in Hospital Records. Admission slips to the hospitals are pretty matter-of-fact records, but occasionally a bit of unconscious humor is found in them. A slip at Gouverneur recently said a driver received his injuries by "falling off perch"—and his name was Bird. Another Gouverneur slip announced that the patient was hurt by "falling off water wagon."—New York Sun.

Have you see Si? better get busy. Life is too short to miss good things like this. Tonight at "DREAMLAND."

MONEY IS SHORT MARKET IS WEAK

Scant Supply Aids in Depression, Although There Is Good Rally at Close.

NEW YORK, December 17.—Scantness of money supply kept the stock market dull and contracted speculative activity materially, but the tone showed some relief. The prices showed less resistance and the movement was dragging and hesitating, assistance toward resisting the depression being afforded by news of the declaration of extra dividends of two per cent for the Lake Shore and Michigan Central stocks, two of the most prominent subsidiaries of the New York Central. There has been a conspicuous selling of New York Central for several days on the assumption that dividends would be reduced or paid in scrip by decision of the directors this week. The action of the subsidiary stocks today shook that belief and led to buying to cover shorts by the bears. Coalers were conspicuous in the decline, Reading leading, but a subsequent rally pointed to professional origin for much selling. Premium persisted on currency.

METALS WEAK.

NEW YORK, December 17.—There was a further severe decline in the tin market, which seems devoid of special support. Spot closed at \$115, 104, and futures at \$117, 54 in London, and locally the market was weak and lower. Copper was lower in London, with spot closing at \$37, 10s and futures \$38, 15s. Locally copper was weak and unchanged, with Lake 13 to 13.25, Electrolytic 12.75 to 13, and Casting 12.50 to 12.75.

Lead was higher in London at \$13, 2s, 6d, and locally weak at \$3, 40 to \$3, 50. Spelter advanced to \$20 in London, but was lower locally, closing weak at \$20 to \$20.25.

Locally iron was unchanged.

ONE OF THE LEADING MEAT MARKETS IN THE GREAT SOUTHWEST

It is hardly necessary to call attention to the half-page advertisement of the Gatti Meat company in this issue.

It speaks for itself and bears a very pleasant message to every family in the city—a greeting broad and generous.

The Gatti Meat company, claiming the commendable distinction of being "the only real independent meat market in the city," is one of Globe's leading business concerns, and although among the youngest market places in the city has by fair, honorable and liberal treatment of its customers established a business second to none in eastern Arizona.

The Gatti company rears, feeds and kills all of its own cattle and never allows only the choicest meats to go to its cutters for the customer. This not only is an advance guarantee of good meat, but takes away the profits of the middle man, making the unusually low prices of the Gatti company possible.

The company placed orders for a full car load of turkeys, ducks, geese and chickens with a prominent valley farmer several weeks ago, and this poultry is being hand-fattened, especially for the holiday trade of the Gatti company. In this car load turkeys will be shipped weighing as high as forty-two pounds.

The Gatti company has secured a lease on the room recently occupied by the Barrett drug store, and in a few days will open a swell up-town market. Watch the Silver Belt for the announcement of the Gatti Meat company. More interesting half page announcements are to follow. "I believe in publicity," says Mr. Gatti. "I am not in the trust."

AMUSEMENTS

The Light House Robbery.

Jolly Della Pringle and her company have certainly made good in Globe. The audience last night was larger than on the opening night, which is a very rare occurrence and speaks well for the class of entertainment offered the public by the company. It also proves that Globe appreciates meritorious shows, and to judge from the continuous applause last evening, everyone got his money's worth and then some.

"The Light House Robbery" is a good wholesome play, with a happy vein of comedy throughout, and Claude Kelly as Si Kidder, kept the large house in an uproar all the time.

The specialties were great and much superior to the usual vaudeville acts offered by road companies. Babe Laird, Jolly Della Pringle, Claude Kelly, and Grace Hamilton all made hits, and earned frequent encores. The wooden shoe dancing of Grace Hamilton was the best ever seen here, and she was recalled several times by the well-leaved audience.

A pleasant feature of the evening was the comfortable condition of the house, which was well heated, as it will be every evening, additional heating facilities having been added which will easily heat every part of the theater.

Tonight the bill to be presented is "The Chorus Girl" and the advance sale is heavy. This is the feature play of the company. The specialties for tonight are very strong, and alone worth the admission price. Notwithstanding the merit of the production, prices will be the same for "The Chorus Girl"—25, 35 and 50 cents for the best reserved seats. No higher.

The management's advice is that reserve seats for "The Chorus Girl" should be secured as early as possible, owing to the advance demand for good seats.

Claude Kelly, the great comedian, will do a new stunt tonight, "while they get the stage set."

There may be other portions of our country better than old Arizona and Globe, but our hired man says that he has "been some" around the different parts of this old globe, and is willing to bet his best corn dog, that Globe can show more sunshiny days, bigger mountains, richer mountains and valleys, more prosperity, more men of push and pluck, more handsome ladies and fat babies than any other town of its size on the globe; and that we have better mines and bigger mines, which are worked by the best miners and the most fair minded men, where there is less friction existing between man and man, than can be found in any old place yet known. And when we talk real estate we can do so with a recommendation gained by past and present facts that a one-eyed man with little reason can see. Banks may suspend, and the financial conditions run end wise and crosswise, but Globe, with her mines, her men, her climate and resources, is here with both feet and here to stay. Now is your time to buy, if you want to get in the best town of its size on the map. Buying, selling, trading or renting—don't forget the
